

At last, a range of binders and lever arch files

as sensitive to
the environment as me.

Aurora EarthCare Binders We all want to do our bit for the environment. Yet products also have to work. Which is why you'll welcome the Aurora range of EarthCare Binders, from Cumberland. They're not PVC, but made from 70% recycled material. They're 100% recyclable, and 70% biodegradable. Yet they won't warp or crinkle with heat; print from the insert sheets won't stick; and insert thumbholes make loading and removing inserts easy. All of which means keeping everyone happy. Especially the most sensitive of us.
